Specifications

Technical specifications

- Shape: Bulb
- Shape: A55
- Light effect: Cool daylight
- Wattage: 4 W
- Fitting/Cap: E27
- Voltage: 100-240 V
- Lifetime of lamps: 25000 hour(s)
- Color rendering index (CRI): >75
- Dimmable: No
- Color: Cool Daylight
- Color temperature: 6500 K
- Mercury content: 0 mg
- Rated lifetime: 25000 hour(s)
- Rated luminous flux: 250 lm
- Rated power: 4 W
- Lumen: 250
- Wattage standard bulb: 25 W

Highlights

Energy efficient
All Philips energy savers save energy from the moment you turn the switch. During their lifetime they use less Kw and thus also result in a lower energy bill. The level of energy saving differs per lamp type and technology.

Instant start
Immediate light when switching on, that is the promise of our instant starting energy saving lamps.

Maximum energy saving
When you switch to a Philips LED lamp, you immediately use up to 80% less energy without sacrificing light output and quality.

Maximum lifetime
On average we have our lamps switched on 2,7 hrs per day and 1.000 hrs a year. The actual burning hours depend on the season (winter vs summer), weather conditions (sunny vs rainy dark day) and on the room where the lamp is used (bathroom vs living room). This LED lamp will last at least 25.000 hrs, thus 25 years.

Reliable quality
Philips keeps their promises about lamp performance. You can trust what the Philips packaging is saying about light output, lifetime, and wattage equivalent to incandescent lamps.

No hazardous substances
LED lamps contain absolutely no hazardous materials, making them safe for any room and convenient to recycle.
